

## Experience

**Graduate Researcher** Dec '20 - Present

**NU McCormick School of Engineering**

Continuing with a self-initiated project, Collective Narrative. Conducting research to define use case for the CN API. Designing the experience that helps users to achieve their storytelling goals. Building a functional MVP for testing.

**Product Designer** Feb '20 - May '20

**LavaLab**

USC's premier startup incubator. Collaborated with product manager and engineers to pitch "Sentry", a portable home security device. Designed and researched all aspects of the product development process.

**UI/UX Design Intern** Jun '19 - Aug '19

**Circle for Roommates**

Composed new features for Circle Maps and neighborhood preferences based on user research. Executed all stages of the design process from data evaluation to wireframes to design-to-development handoff.

## Projects

**DaTA Program** Jan '21 - Mar '21

Collaborated with a multidisciplinary team to work on a service design project in partnership with Mather. Developed synthesis framework to identify users' pain points. Delivered service playbook and presentation to our Mather partners.

**Arity** Jan '21 - Mar '21

Collaborated with a team to work on a UX design project in partnership with Arity. Designed three concept features based on user research and testing. Developed high-fidelity prototype which was presented to our Arity sponsors.

**Procter & Gamble (P&G)** Sep '20 - Dec '20

Collaborated with a multidisciplinary team to work on a product design project in partnership with P&G. Developed journey-maps and personas based on user research. Designed an MVP which was pitched to our P&G sponsors.

## Education

**M.S. Engineering Design Innovation**

**Northwestern University '22**

Graduate Researcher under Haoqi Zhang

**B.F.A. Product Design**

**University of Southern California '20**

Minor in Computer Programming

Senior Thesis: Zima Mirror

## Competency

Visual Design

Interaction Design

Product Thinking

Collaboration

User Research

Storyboarding

Wireframing

Prototyping

Usability Testing

## Design

 Pen + Paper

 Sketch

 Figma

 InVision

 Photoshop

 Illustrator

 InDesign

 After Effects

## Programming

 HTML

 CSS

 JavaScript

 jQuery

 SQL

 PHP

 Java

 Swift

 Arduino

 Python
